SEE NOVELTIES FOR DESCRIPTION OF NEW INTRODUCTIONS

We are introducing several new and choice seedlings purchased from the originators, Mr. Chas. E. F. Gersdorff, and the Decorah Gladiolus Gardens. New varieties are being listed with ratings derived by the A. G. S. Standard Scales. Several of the seedlings being offered took first and second awards at the Takoma Horticulture Club Show in 1929.

We are closing out many choice varieties in small supply in remnant collections. These collections are being offered now.

NOTICE TO GROWERS

Some of the new seedlings being offered by us may be obtained by the hundred at trade prices. Write if interested.

Twelve bulbs may be had for ten times the single rate. Prices are quoted for bulbs 1¼ inch and up, except where noted, and except when variety makes normally a smaller bulb. The largest blooming size available will be sent. Smaller sizes and bulblets are available in some instances, and prices are a matter of correspondence. Prices are for stock sent prepaid, healthy and true to name, and any proving otherwise will be cheerfully replaced.
